

## PALGRAVE STUDIES IN MEDIA AND ENVIRONMENTAL COMMUNICATION

SERIES EDITORS: ANDERS HANSEN, Department of Media and Communication, University of Leicester, UK and STEPHEN DEPOE, University of Cincinnati, USA

Drawing on both leading and emerging scholars of environmental communication, the *Palgrave Studies in Media and Environmental Communication* series features books on the key roles of media and communication processes in relation to a broad range of global as well as national/local environmental issues, crises and disasters. Characteristic of the cross-disciplinary nature of environmental communication, the books showcase a broad variety of theories, methods and perspectives for the study of media and communication processes regarding the environment. Common to these is the endeavour to describe, analyse, understand and explain the centrality of media and communication processes to public and political action on the environment.

ANDERS HANSEN is Senior Lecturer in the Department of Media and Communication at the University of Leicester, UK. He is Associate Editor of the journal Environmental Communication, Secretary to the International Environmental Communication Association, and founder and immediate past Chair of the IAMCR's Working Group on Environmental Issues, Science and Risk Communication. His research focuses primarily on media roles in the communication, representation and construction of environmental issues, science and health.

STEPHEN DEPOE is Professor and Head of the Department of Communication, McMicken College of Arts & Sciences, University of Cincinnati, USA. He is the former editor of Environmental Communication and was the inaugural chair of the International Environmental Communication Association. His research areas include environmental and risk communication, particularly the role of the public in environmental decision-making; and public communication.

PROPOSALS: The series editors invite proposals for book manuscripts on media and environmental communication. They particularly welcome proposals on:

- Environmental journalism
- Environmental crisis/risk/disaster communication
- · Environmental protest and activism
- · Visual environmental communication
- Environmental advertising and campaigning
- Public relations and corporate environmental communication
- · Environmental news management
- New media/social media and environmental communication

Expressions of interest and initial proposal abstracts of no more than 300 words should be emailed to the editors on ash@le.ac.uk (Anders Hansen) and depoesp@ucmail.uc.edu (Stephen Depoe).
